

Dragonfly Educator Workshops: Giving Roots to your STEM

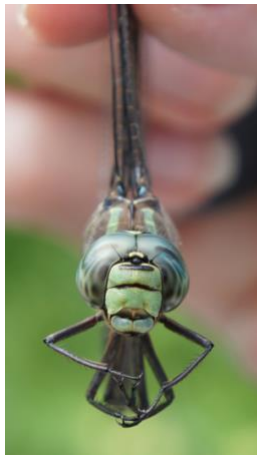

Cedar Creek Ecosystem Science Reserve
2660 Fawn Lake Drive NE
East Bethel, MN 55005
Tuesday, July 30th, 8:30am – 12:30pm

Register online at tinyurl.com/dragonflyworkshop

Get a bit of dragonfly background knowledge, a lot of hands-on outside exploration, the beautifully illustrated full-color electronic Dragonfly Curriculum Guide with 17 classroom activities. Explore and collect data at a world-renowned ecological field station. Teachers can also earn 4 CEUs.

The Dragonfly Workshop Includes:

- Outdoor hands-on field time capturing and examining as many dragonflies as we can catch
- Dragonfly life history 101
- Techniques for dragon and damselfly ID
- Practice using dragonfly classroom activities
- A full-color electronic version of the Dragonfly Curriculum Guide, including 17 activities
- Four CEUs
- Connections to all of the NGSS Scientific Practices: asking questions, using models, investigating, computational thinking, constructing explanations, argumentation, and communication

Quotes from previous participants:

“I think this is the BEST training, related to science, I have ever received.”

“Fun. Organized. Professional. Great takeaways. Good Knowledge of the Science! Thank you!!”

“Really well prepared workshop and you get a lot for your money. Tons of free resources materials and activities. We were always moving and learning something new, never bored!”
